

Kelly Behun Joins The Invisible Collection with an Outdoor Furniture Collection

[The Invisible Collection](#) released [an exclusive outdoor furniture collection](#) by world-renown designer [Kelly Behun](#). Designed and produced entirely in the United States, her collection found inspiration in the work of Italian designer Carlo Bugatti and Catalan architect Antoni Gaudi. There's a distinct Mediterranean flare to the collection's silhouettes and material combinations, a welcome sight in the world of outdoor furniture. Behun has chosen intricately carved details for an heirloom-like touch in the mosaic and bleached mahogany pieces, materials that will last and accrue a lovely patina with use and age.
