**THE POWER OF  
ART & DESIGN**

“I love the textural paintings of early Cubist Alfred Réth. For this study, I conceived a warm cocoon of collectibles that reads as a contemporary space while hearkening back to the classics.”

**DAVID SCOTT**

David Scott lends his curatorial eye to every project he creates. The results sparkle with a sophisticated edge and European sensibility that always brim with comfort and warmth. “When we layer things,” he says, “it creates a dynamic form, balancing textures and finding a connective.” [davidscottinteriors.com](http://davidscottinteriors.com)

**VICTORIA HAGAN**

Victoria Hagan’s crisply refined interiors may be her calling card, but it’s her gift for balancing comfort and elegance that keeps her impressive cadre of clients coming back for more. The timeless spaces she conjures are also known to bring out the best in blue-chip art collections. [victoriahagan.com](http://victoriahagan.com)

“Creating a dining room to host a fantastic dinner party is my personal fantasy. Cecily Brown’s work draws you in, and you never see the same thing twice. I’m always blown away by the emotion I feel when I see her pieces.”
